

Policies

For the safety of all animals in our care, we require that all vaccinations be up to date.

Even though we make every effort to make our patients feel comfortable during visits, they may be a little uneasy about new people, new surroundings and other pets. This is one of the reasons we ask you to restrain your pet.

We recommend that animals be placed on a leash or in pet carriers before entering the waiting room.

Payment Policy

We require full payment at the time that services are rendered. For your convenience, we accept Visa, MasterCard, Discover, cash and personal checks.
